

# Moving On™: Interactive Guide for Breast Cancer Survivors

Grant Number: R44CA091661

## Abbreviated Abstract

The number of breast cancer survivors is growing due to early detection of confined cancer and increased effectiveness of treatments. This CD-ROM for breast cancer survivors addresses issues that present or persist post treatment. *Moving On™* will provide information and interactive tools to assist women during this stage. Subsequent to development a randomized field test will determine the effectiveness of the CD-ROM in increasing knowledge, self-efficacy and quality of life.

## Primary Investigator

Susan Brink, DrPH, HealthMark Multimedia, HealthMark Multimedia, 1828 L Street, NW. Ste. 250, Washington DC, 20036, 202-265-0033 x201, Fax: 202-448-6188,

## Research Team & Affiliations

Janet Brown

Jane Lincoln, MSW

Cathy Prah

## Total Budget

\$912,639.00

## Research Objectives

### AIMS

- 1) To produce the complete product, *Moving On™*: An Interactive Guide for Breast Cancer Survivors.
- 2) To test the effectiveness of the CD-ROM.
- 3) Implement *Moving On™*: An Interactive Guide for Breast Cancer
- 4) *Survivors* commercialization plans

## Theory/Hypothesis

No information at this time

## Experimental Design

One group pretest/posttest

## Final Sample Size & Study Demographics

Women in treatment or post-treatment for breast cancer

## Data Collection Methods

## **SBIR Product Directory**

Turning Cancer Research into Commercial Products

Surveys, in-depth interviews with patients, group interviews

### **Outcome Measures**

QOL. Knowledge, use

### **Evaluation Methods**

Randomized field test

### **Research Results**

In process

### **Barriers & Solutions**

No information at this time

### **Product(s) Developed from This Research**

Moving On: An Interactive Guide for Breast Cancer Survivors™: CD-ROM, web-enabled content, xml articles, audio files, interactive tools available for license.
